Due: On or Before October 13, 2009

Assignment: Create a poster sized version illustration of one of the following theories as discussed in class and/or presented in the text:

- o Nebular theory of solar system formation
- o Formation of the solid Earth
- o Formation of Earth's Atmosphere
- o Formation of Earth's Oceans

Credit: Up to 5 points of Credit will be given based on creativity, neatness, correctness of information, and your ability to communicate that information in a visual manner. Just making a poster does NOT guarantee that you will get credit.
